ANSWER THE ALARM!

Norway People Should Not Delay.
If your kidneys are inflamed,
Don't stand around and do nothing.
Like a fire it will soon be beyond control.

You will get the alarm in time—
Backache, or dizziness or disorders of the urine.

Heed the warning.
Give your kidneys a rest by living more carefully.

Use Doan's Kidney Pills to help stamp out the cause.

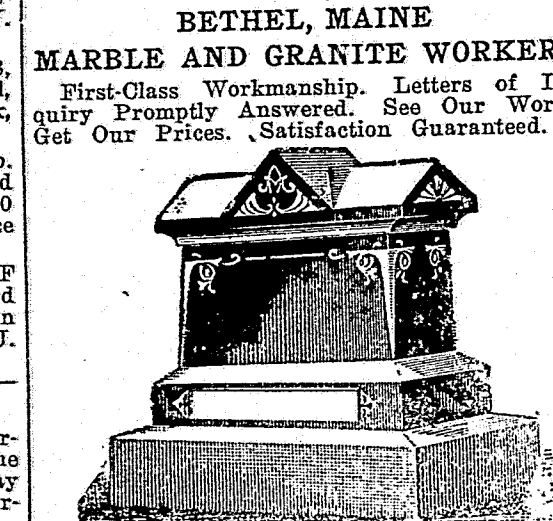

Profit by a Norway woman's experience.

Mrs. Myrtle Payne, Hazen St., Norway, says: "A few years ago I was having pains across my back and kidneys. They annoyed me very much and on stooping or lifting I felt them more."

I found Doan's Kidney Pills very good for this trouble. As I used them, the pains gradually lessened. Soon I was practically free from the trouble. I feel that Doan's Kidney Pills are entirely worthy of my recommendation."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Payne had. Foster-Milburn Co., Props., Buffalo, N. Y.

PATRIOTIC

They were talking war in the White House
And at last they made it go
They are making big preparations
To quell a foreign foe.

They are recruiting the army and navy
To every possible man
Who is of red American blood
To serve his Uncle Sam.

They are mustering in the National Guards
From many of the different states;
And the boys are going with a good free will
To fight the German Huns.

And many are waiting in the line
To defend their dear Old Land
From the clutch of an alien foe.
And Company D of Norway.

The crack regiment of Maine,
They were mustered out at Norway
To serve their man on his guard
To do the best he can.

Their knapsacks strapped upon their backs,
They march away to war,
A squad of daring Yankees
To fight the Hun what they are.

They board the train at Paris
Singing out to war we go, rides
With their U. S. G. uniforms
To quell the invading foe.

They are filled with the Yankee spirit,
The spirit of '76,
And every man of them is a hero.
When he goes to fight he knows.

The Massachusetts fighting spirit
Was the first to lead to entrain,
They are out to die for Uncle Sam,
But not to die in vain.

The U. S. Navy jads are full of fun;
But when duty calls these lads
They are the men behind the guns.
They are the dear old Stars and Stripes.

Proudly float from shore to shore,
And our boys in blue and the boys in blue
Will see her float forever more.

Our New \$1150 Six

Thousands who wanted Mitchells wanted a smaller car. So this year we show Mitchell Junior

Not too small. The wheelbase is 120 inches—the motor is 40-horse power. That's way beyond the usual in a car for five.

You have never seen a fine car with such amazing value.

Unique Things

The Mitchell is famous for its hundreds of extra values.

**31 Unique Features—
24 Per Cent. Added Luxury—
100 Per Cent. Over-Standard French.**

These are all paid for by factory savings, due to John W. Bate. He has spent millions to attain them. This whole plant has been built and equipped by him to build this one type economically.

The result is a great car, built at far lower cost than anyone else could build it. And that saving goes into these extras.

See the Result

See the 31 features which nearly all cars omit. See this year's added luxury, paid for by savings.

ings in our new body plant. We spend 24 per cent. more on beauty than last year.

But the greatest Mitchell extra is this double strength in every vital part. Our margins of safety—once 50 per cent.—have been doubled in three years.

Over 440 parts are built of toughened steel. All safety parts are vastly oversized. All parts which get a major strain are built of Chromo-anadium.

The object is a lifetime car, and tests show that we have it. Cars still in good condition have been run over 200,000 miles.

Cost \$4,000,000

The Mitchell extras on this year's output will cost us \$4,000,000. They cost you nothing, because our factory methods save them.

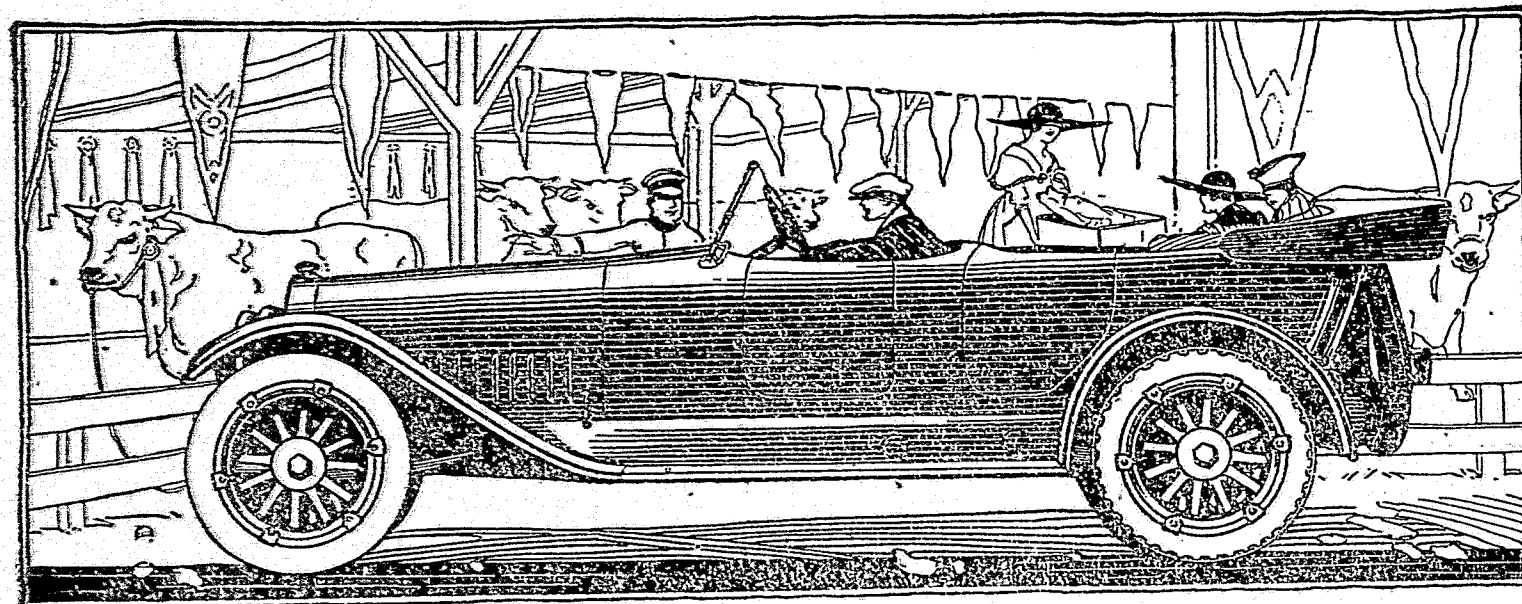

Compare the Mitchell with cars without these extras. We will abide by your judgment on which car you want.

Daisy Baker's Mother Says

**Which Do You Choose
to Pay for the Food You
Eat—\$1.40 or \$17.20?**

Scientific analysis by the U. S. Department of Agriculture proves that there is as much actual food value in 24½ lbs. of flour as in 43 dozen eggs.

At 40 cents a dozen, the eggs cost \$17.20, while, even at \$1.10 a barrel, a 24½-lb. sack of William Tell Flour will cost you only about \$1.40.

Of course, you don't want to eat all flour nor all eggs, but you can readily see the great possibilities for economy in flour.

uring out more ways to use flour to take the place of more expensive foods.

William Tell Flour is one of the easiest flours that I have ever used. It's made in Ohio—right in the Miami Valley, where the rich limestone soil gives it a most delicious flavor and wonderful baking qualities.

It takes the ache out of bake and puts the flavor in. I use it for everything.

Use WILLIAM TELL Flour

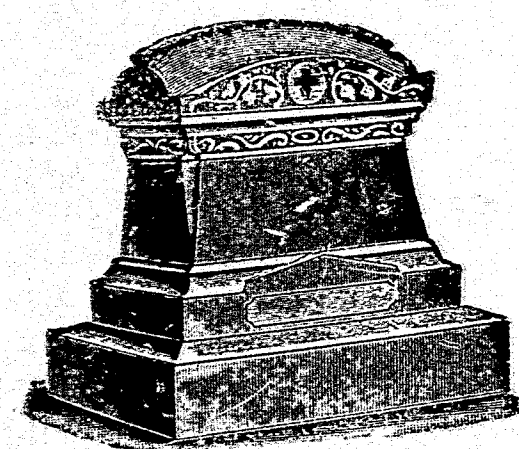

It is guaranteed by the grocer who sells it, by the Antioch & Burk Company, who make it, and by the Ohio Better Flour Label, which you'll find on every sack.

5,000,000 Corns Lifted Right Off!

Try 2 Drops of Magic "Gets-It"

There's a wonderful difference between getting rid of a corn now and the way they used to try to get rid of it only a few years ago. "Gets-It" has revolutionized corn history. It's the only corn remedy

"See! Just 2 Drops of 'Gets-It.' Now Tomorrow I'll Just Feel That Corn Right Off—and It's Gone!"

today that acts on the new principle, not only of shoving up the corn, but of loosening the corn off so loose that you can lift it right off with your fingers. Put 2 drops of "Gets-It" on that corn or callus to-night. That's all. The corn is doomed sure to disappear. No pain, or trouble, or soreness. You do away once and for all with toe-bundling bandages, toe-eating salves and irresponsible what-nots. Try it—get surprised and lose a corn.

What You Get for
What You Pay.

In the clothing field, as in every other, there are certain prices at which one's money brings the greatest possible return.

To pay less is unwise—you sacrifice quality in some form or other. But sacrifice you do—whether it be in appearance, fit, quality or comfort, lowness of price has cost you desirable quality.

To pay more is foolish—for beyond the true "value price" lies extravagance. What, then, is the value price, who determines it and how? Answer these queries and you have answered the question of "what suit to buy."

Now value is simply a matter of what you get for what you pay—it is determined by the ratio of quality to price. The true "value price" is that at which you get the most for your money, in those qualities that are essential to your permanent clothes satisfaction.

Clothes from the House of KUPPENHEIMER are the kind with perfect fit, style and fabrics. And above all, Guaranteed Satisfaction. Come in and look them over.

WHY A PIANO?

We are HAPPIEST when our lives are FULLY ROUNDED OUT by the proper experiences, and if we don't include ART in those experiences, we have missed the combination. MUSIC is just as much needed in our home—in ANY home—as different foods are at a meal. We can't get along on bread alone, or meat alone, or anything else by itself. And we can't say that we have lived up to our full measure without music. The PIANO is an essential in your home—because its results is an important part of Happiness. Charles Pingree was in town last week one day.

Quite an unusual event happened last Saturday, three arrests were made in one day in town. Victor Kneeland of North Fryeburg was arrested for taking forty-nine dollars and a grip that belonged to his father and sheriff Woodside was telephoned to meet him when the stage arrived and hold him, which he did. The money and grip were recovered and Kneeland was taken to Paris to appear at court. The same forenoon Elmer Sawyer and a friend of his who had been working in Conway arrived on the down train and were under the influence of liquor to the extent that they had to be locked up. Later in the day all three had a hearing before B. Walker McKean, Trial Justice, and Victor Kneeland pleaded guilty and was remanded to Paris. Elmer Sawyer shared the same fate and the other paid his fine and costs and started for New Hampshire. It was the most exciting of that kind in Fryeburg has been treated to for many a day.

Mr. Barth, who has spent several seasons at Loneswell's pond with his wife and resides in New York, is having a cottage built at the pond. W. O. Brown is doing the work. Mr. Barth was in town two days last week.

STONE'S WATER GLASS

For Preserving Eggs
30c in quart bottles.

DIRECTIONS—Use only perfectly fresh eggs. Stale eggs will not keep by any method of preservation. Clean out the vessel in which the eggs are to be packed (preferably a stone jar) by scalding with boiling water. Prepare the solution, using water that has first been boiled and then cooled to ordinary temperature.

To each 10 quarts of water add 1 quart of water glass. Pack the eggs into the jar and pour the liquid over them, covering the eggs completely. Do not wash the eggs before packing them, as this may injure their keeping qualities by removing a natural protective coating on the outside of the shells.

Keep the eggs packed in this manner in a cool, dark place, such as a dry cool cellar.
